454 South Anderson Road, BTC Suite 307
Rock Hill, SC 29730

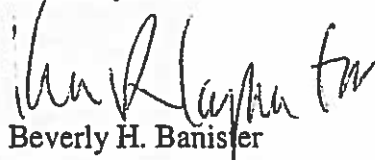

SUBJ: CERCLA Off-Site Rule: Voluntary Withdrawal
Ensco Environmental Services, GAD 000 222 083

Dear Mr. Schlauch:

The Ensco Environmental Services (Ensco) facility located at 1015 New South Harris Street in Dalton, Georgia is currently acceptable to receive CERCLA Off-Site wastes. The CERCLA Off-Site wastes to which this letter refers are defined as those wastes generated as a result of activities authorized pursuant to, or funded by, the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA).

According to a March 6, 2006, telephone call between you, as a representative of Ensco, and the Environmental Protection Agency (EPA) Region 4, the Ensco facility has gone through closure under the Resource Conservation and Recovery Act and ceased operations at its Dalton location. In your telephone call, you requested that your Dalton facility be withdrawn from the Off-Site Rule universe. Since your facility does not have any relevant violations or releases under the Off-Site Rule, EPA accepts your request to withdraw from eligibility to receive CERCLA Off-Site wastes. If you have any questions concerning this withdrawal, please contact Jack Cowart at (404) 562-8591 or by e-mail at cowart.jack@epa.gov.

Sincerely,

Beverly H. Banister
Acting Director
Waste Management Division
